2026 Annual Community Meeting

November 18th
6pm to 8:30pm

POINT SAN PEDRO ROAD COALITION

Agenda

6:10	Welcome
6:15	Coalition Committee Reports
6:40	Q&A
6:50	Marin County
7:30	Q&A
7:40	City of San Rafael
8:20	Q&A
8:30	Adjourn

POINT SAN PEDRO ROAD COALITION

Disaster Preparation Committee

John Lenser

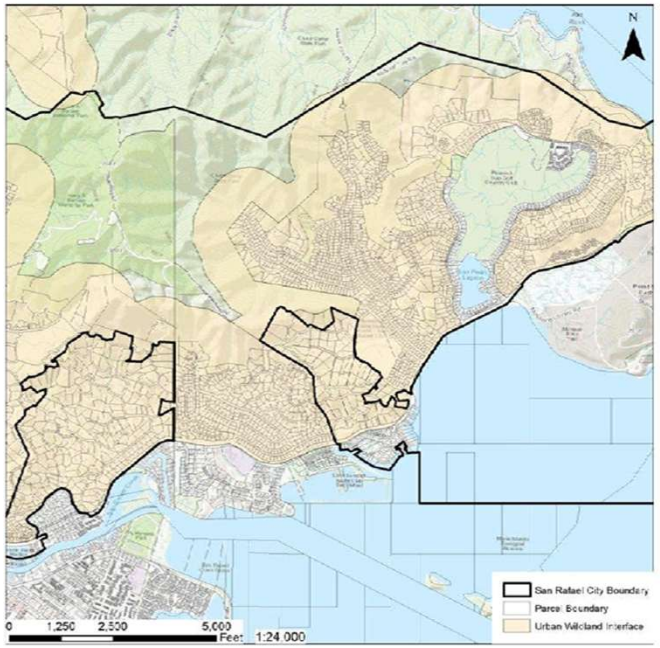

Fire & Disaster Preparedness

Preparedness Committee of the Point San Pedro Road Coalition

Our Communities are especially vulnerable!

Wildfire - Earthquake – Tsunami – Flood

- Our communities are in a Wildland Urban Interface and exposed wildfire
- Many communities are just above sea level, built on former wetlands bordering the Bay
- The “big one” is coming

POINT SAN PEDRO ROAD COALITION

Our Communities are especially vulnerable!

Wildfire - Earthquake – Tsunami – Flood

- We have two ways out: through China Camp or west to the high school
  - The China Camp exit is a poor choice due to fire, floods, or landslides
  - The road west may be be jammed, liquified, or flooded
- In a major earthquake, Marin County will be completely isolated with bridges and Highway 101 inoperable

We need to be prepared to shelter in place and be self-sufficient for an extended period

Point San Pedro Road Coalition

Disaster Preparedness Committee

- *Training*
- *Community Preparedness*
- *Evacuation and Refuge*
- *Community Resources*
- *Defensible Space*

POINT SAN PEDRO ROAD COALITION

Training

Host “One Hour to Get Ready”, Community Emergency Response (CERT), and Lifesaving Skills classes

CERT Basic Training

In-person trainings consist of 20 hours of instruction and hands-on practice in a classroom environment presented by the SRFD.

Disaster Preparation

Presentation by the SRFD on Firewise and programs to mitigate wildfires, home inspections, disaster alerts, and evacuation. Two-hour session were presented on June 27th

Marin Lifesaving Skills Training

Half-day session teaching Hands-only CPR, use of external defibulators, stop-the-bleed and Narcan administration presented by MMRC and Marin Health & Human Services.

POINT SAN PEDRO ROAD COALITION

Evacuation and Refuge

Provide information to the community about evacuation and refuge in collaboration with San Rafael and County fire departments; stage triage and rescue supplies in a mobile trailer and strategic locations along the corridor

- Raised over $20,000 to purchase medical and rescue supplies

Point San Pedro
Road Coalition

Emergency Alert Systems

Alert Marin

A countywide system operated by the Marin County Sheriff's Department. Call 415.473.6584 or go to AlertMarin.org to register

ZoneHaven

Marin's new approach to evacuations by zones/neighborhoods; provides real-time data on wildfires, emergencies, and fire risks. Learn more by visiting www.cityofsanrafael.org

The above systems depend on the internet, copper wire, or cellular towers functioning. Consider purchasing an All Hazards Alert Radio

All San Rafael police and fire vehicles are equipped with Hi-Low Sirens

Point San Pedro Road Coalition

Defensible Space

Encourage residents to create defensible space around their homes; host weed pulls to remove fire prone invasive species

- Both the SRFD and County have robust inspection and enforcement programs
- Publicize chipper days
- With the SRFD, facilitate community group brush removal
- Coalition annual weed pull

POINT SAN PEDRO ROAD COALITION

Do your research!

Tsunamis
Tides and Flooding
Be aware that sections of Point San Pedro Road tend to flood during high tide events, es
periods of rain that increase the amount of water on the roads. Please note that forecasti
is a mix of predictable astronomy and unpredictable climate and weather. Click here for
explanation of tides, flooding and predictions. Note that tide levels you see on the news
tide levels on our roadways due to differences in timing and tide levels throughout the b
Summary
Before heading out from your house along the Pt San Pedro Road (PSPR) corridor, check this tide forecast (don't rely on news reports because water levels vary by location), adjust upward several inches or more for rainfall (difficult to predict how much to adjust), and use this table to decide the best time to head out. Note that our local tides tend to lag those in the Richmond tide forecast by 10 to 45 minutes. Note that most of the tidal flooding on PSPR is water coming up through the storm

Tide Forecast - 48 hrs

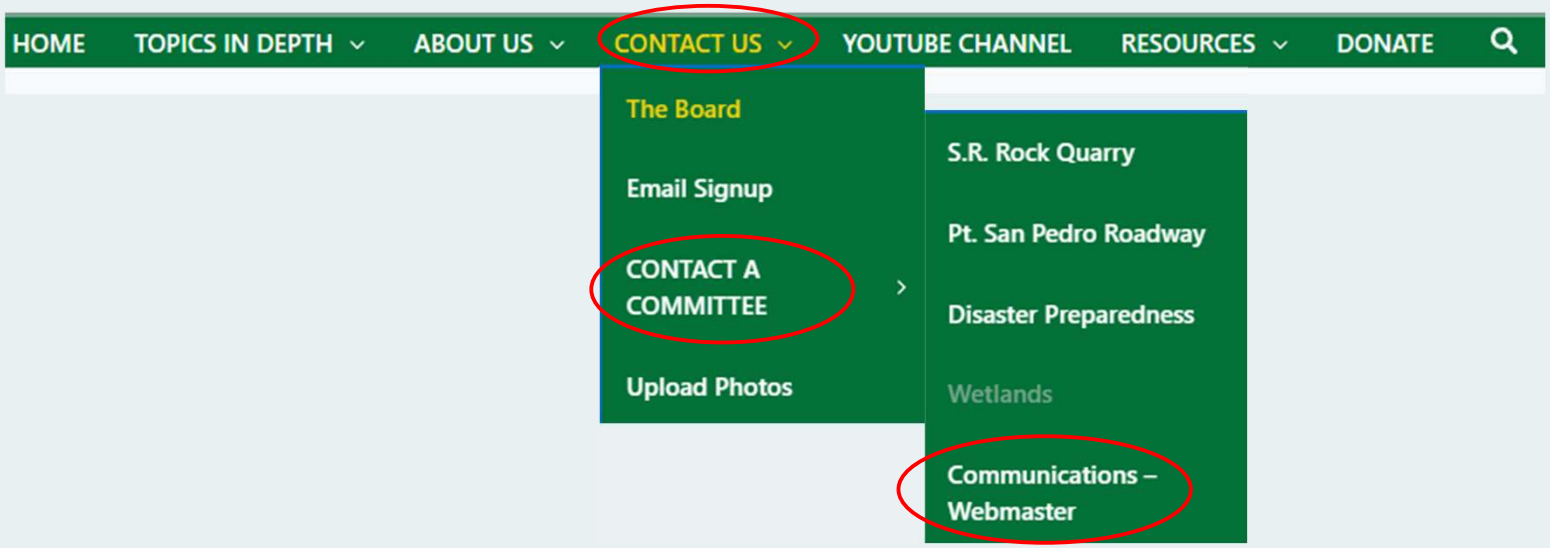

Water Level (above NAVD)	**West-bound to 101**	**Eastbound from 101**
< 7 ft	No tidal flooding	No tidal flooding
7.0 ft to 7.6 ft	Near Marin Yacht Club, left lane has puddles (slow down). Right lane still clear.	No tidal flooding
7.6 ft to 7.9 ft	Near Marin Yacht Club, left lane closed. Cars can pass in 1the right lane, especially if using the right shoulder.	Near Marin Yacht club, and Bayside Park, water covers bike lane, but no flooding in traffic lanes.
8.0 ft to 8.4 ft	Likely passable for most vehicles but will require driving through several inches of water in both lanes near Marin Yacht Club and possibly in front of SRHS. Detour by turning right at Margarita or Summit and using your GPS to take you where you want to go.	Likely passable for most vehicles but will require driving through several inches of water in one or both lanes in some spots: (1) near Marin Yacht Club, (2) near Bayside Park, (3) just past Peacock Drive.

QUARRY COMMITTEE

https://www.sanrafaelrockquarry.com/

POINT SAN PEDRO
ROAD COALITION

QUARRY COMMITTEE

Denise Lucy, Co, President and Quarry Committee Chair

- **Quarry Committee addresses issues related to San Rafael Rock Quarry:** A large-scale industrial mining operation in our neighborhood.
  - County of Marin oversees SRRQ compliance with 172 Conditions of Approval of Operating Permit and Reclamation.
  - In 2021, County granted an extension of operations and complete Reclamation until 2044.
  - “Reclamation” is the plan to restore the land for future use once mining is discontinued
  - Coalition & Quarry leadership teams meet on a range of topics, including 3 specific areas agreed upon for further dialogue and action, which are now ongoing:
    - 1) Air Monitoring, 2) Roadway Maintenance 3) Wetlands

- County of Marin cooperates with SRRQ & PSR Coalition. SRRQ provides Permit details and monthly data: **https://publicworks.marincounty.gov/san-rafael-rock-quarry/**

POINT SAN PEDRO
ROAD COALITION

AIR MONITORING

- Air Monitoring was required as part of the Quarry permit Conditions of Approval
- Compliant Air Testing was completed and did not exceed State & Federal particulate thresholds
- County has discretion to require Compliant air monitoring in the future
- CRH has experience and is exploring new technologies to ensure safe emissions.
    - Tier compliant equipment improvements made since permit issued.
- <u>Discussions underway with Quarry:</u>
    - Quarry and Coalition are considering benchmarks for future air monitoring

POINT SAN PEDRO
ROAD COALITION

ROADWAY
Maintenance & Traffic

Daily Truck Trips:

- SRRQ reports daily truck trips to each month starting 10th of each month
- Truck traffic varies by day, but under 125 round-trip per-day max
- **Truck Convoying** is **Not permitted leaving or arriving at the quarry.**
  - Outgress: Trucks metered 7am to 9am and noon to 1pm to ensure there are 2-minute interval between trucks leaving the quarry.
    - CRH explained complications with monitoring every 2 minutes
    - We continue to discuss and seek options to ensure this practice is met.
  - Ingress is more complicated with many variables that were explained and welcomes further discussion to identify interventions.

POINT SAN PEDRO
ROAD COALITION

WETLANDS

- Coalition & SRRQ are aligned in protecting our sh oreline and marshes from impacts of sea level rise and committed to planning for future sea level rise
- Wetlands Committee will report on Wetlands
- For Quarry questions:
  - Aimi Dutra, Director of Community Relations
    Aimi.Dutra@na.crh.com

Wetlands Committee

Cathy Lenz for Winifred Dejani

Marin County

- Steve Torrence – Office of Emergency Management
- Mary Sackett - District 1 Supervisor
- Christopher Blunk - DPW Director

City of San Rafael

- Kate Colin - San Rafael Mayor
- Paul Navazio - City Manager

Thank you for attending!
