

SAN RAFAEL
THE CITY WITH A MISSION

COMPLETE ASPHALT MAINTENANCE
SINCE 1976

Advanced Construction Notice

In order to extend the service life of your street, and improve the appearance and skid resistance, **The County of Marin** has hired Graham Contractors to apply a "Slurry Seal" to Point San Pedro Road from San Rafael High School to East of Biscayne Drive. "Slurry Seal" is made of asphalt "oil" and finely crushed rock. "Slurry Seal" is designed to protect streets from damage caused by traffic, sun and water. We appreciate your cooperation in this matter and will do our best to minimize the inconvenience to you and your families.

On the dates the "Slurry Seal" is applied, lane closures will be in effect & driveways in the work area closed to traffic. There will be detours to ensure safe passage of all citizens. Please choose alternate routes and expected delays. For the work to be completed safely and professionally, it is **IMPERATIVE** that vehicles and trailers not be driven or parked on the street the day it is scheduled to be resurfaced. **VEHICLES and TRAILERS WILL BE TOWED TO CLEAR THE STREET!** If you need to use your vehicle or trailer, it is recommended that you park it on an adjacent street that is not scheduled for "Slurry Seal" that day.

Also, please do not water lawns or bushes on the days that construction is scheduled, as this may cause a permanent unsightly appearance on the street in front of your home! The oil used on your street will "track" stains onto driveways, sidewalks, etc. if driven through prematurely, and **IT WILL STAIN YOUR CARPETS** if tracked into your home!

The garbage company has been notified of this schedule, and will make **EARLY** pick-up if your street is scheduled for Slurry Seal on garbage day. Please have your garbage cans to the curb by 6:00 am if your street is scheduled for "Slurry Seal" on the same day as garbage day.

We apologize for any inconvenience this may cause you, but with your cooperation we can make this a project that will **improve the appearance of your neighborhood** while **saving you tax money** on costly future street repairs.

Prior to the commencement of slurry seal operations, striping along your street will be removed. Traffic Control, including lane closures, will take place during this portion of work.

Following the installation of slurry seal, striping & signange will be replaced. Traffic Control, including lane closures, will take place during this portion of work.

Additional notices with Dates & Times will be provided prior to commencement of work.

***** EMERGENCY VEHICLES WILL HAVE ACCESS AT ALL TIMES *****

TEMPORARY "NO PARKING" SIGNS WILL BE POSTED ON THE STREETS.

IF THE WORK IS NOT COMPLETED ON THE DAY SCHEDULED, YOU WILL BE RENOTIFIED.

Dates & Times to Follow, Prior to Work Beginning
